EXPERT'S REPORT.

To the Stockholders of the Atlantic and North Carolina Railroad Company:

GENTLEMEN: We, the undersigned Experts representing the Lessor and Lessee submit herewith report of the physical condition of your properties on July 12th, the date of annual inspection.

We found the roadbed, bridges, trestles and depot buildings in good condition with the exception of one section near Pine Grove. The force was at work on this section putting in new ties. Slight repairs are needed on platforms at Millers and Thurman and on some of the bridges and trestles.

Improvements have been made at several Stations. Since the fire, November 16, 1915, the Shops at New Bern have been greatly improved. The Blacksmith and Engine Shops replaced and Paint Shop and Round House restored, a brick machine shop added to erecting shop to give enlarged facilities and a new Planing Mill. Improvements have also been made in the yards.

We show below statement of betterments and improvements and the cost of same for the fiscal year ending June 30th, also statement of Equipment in use.
